

Department of Energy  
Washington, DC 20585

Dear Kevin Rooth,

Thank you for working with the U.S. Department of Energy's (DOE's) *Save Energy Now* program. We are pleased to present you with this certificate of appreciation to recognize your plant's exemplary participation in an Energy Savings Assessment.

Our Save Energy Now initiative is dedicated to helping U.S. industry reduce fossil energy use and carbon emissions and our goal is to reduce industrial energy intensity by 25% in 10 years. By receiving an Energy Savings Assessment from the Mississippi State University Industrial Assessment Center (IAC), your plant has demonstrated leadership initiative and contributed to achieving national energy goals. The energy-saving opportunities identified through the assessment should help your company to increase productivity while also improving reliability, cost-effectiveness, and environmental performance.

We encourage you to continue working with the IAC program, which offers ongoing support and helpful information. Our website offers many additional resources for energy efficiency improvements within your plant. Resources such as the following are all available at no cost: our quarterly on-line magazine *Energy Matters*, a suite of powerful software assessment tools, training opportunities, manuals, technical tips and publications, and the searchable IAC database of assessment results collected since 1980. If you would like to receive the Save Energy Now CD, which conveniently packages many of these resources for managing plant energy use, please visit [www.eere.energy.gov/industry/saveenergynow](http://www.eere.energy.gov/industry/saveenergynow) or contact the EERE Information Center at 1-877-337-3463. You'll want to check our website periodically for new assessment case studies, success stories, and updates on assessment results.

We also want to remind you about our Save Energy Now Recognition Program, which publicly acknowledges plants that have realized significant energy savings in response to an Energy Savings Assessment. You need only submit your periodic progress report to be considered for an award.

We truly appreciate your cooperation and support in making *Save Energy Now* a huge success and accelerating progress toward national energy and environmental goals.

Sincerely,

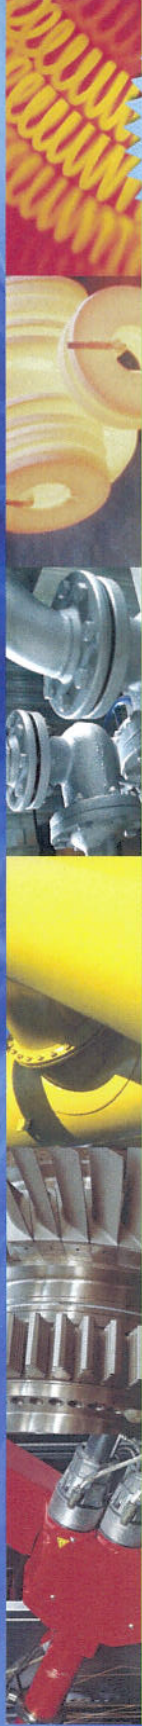

A handwritten signature in cursive script that reads "Douglas E. Kaempf".

Douglas Kaempf  
Program Manager  
Industrial Technologies Program

P.S. We encourage you to send your comments and suggestions regarding this program to the EERE Information Center at 1-877-337-3463 or [eereic@ee.doe.gov](mailto:eereic@ee.doe.gov).

U.S. DEPARTMENT OF  
**ENERGY**

2009

## *In Recognition*

Presented by the U.S. Department of Energy to:

**Graphics Packaging  
Solon, OH Plant**

*For demonstrating exceptional leadership by completing an Energy Savings Assessment through the Save Energy Now Program*
