Machine Footprint

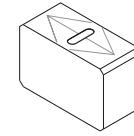

Package Styles

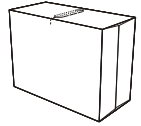

No Top Flap

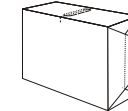

Square Corners

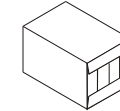

Beveled Corner

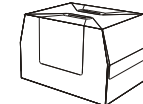

Butt Flap

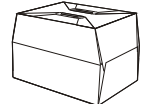

Overlap Flap

Economy Flap

2-Sided Taper Pack

4-Sided Taper Pack

Key Features

Machine and Package Flexibility

The Quikflex 2100 packages cans, glass and PET in a wide range of configurations and package styles.

High Speed Packaging

Dedicated 7-1/2" or 9" pitch design allows smaller containers and pack sizes to run at speeds up to 300 packs/minute.

No Tool Changeover

Our tool-less changeover technology is quick, simple and repeatable, eliminating time-consuming fine tuning.

Functional Design, Easy Access Construction

Convenient design permits easy component accessibility and provides effective operator protection. Single level, no elevated platforms required.

Machine Dimensions

35'-6" long, 7'-1" wide, 7'-7" high
(10.8m x 2.16m x 2.31m)

Machine Weight

Approximately 20,000 lbs. (9,090 kg)

Construction

Heavy duty tubular steel

Electrical

460 VAC, 3 phase, 60 Hz or to customer specifications

Air requirements

80 PSI, 6 bar, 11 CFM
(with venturi vacuum pumps)

Hot Melt

To customer specifications

Lubrication

Lincoln centralized automatic oil and grease
