

Your Trusted Global Partner for Pet Care Packaging

Graphic Packaging is a global leader in sustainable consumer packaging. Our expertise lies in transforming paperboard into packaging with a high degree of convenience, functionality, and circularity. Our packaging is designed to perform through the supply chain, onto the retail shelf, and into the consumer's home.

With a deep understanding of consumer trends and retail environments, we craft innovative structures with high-quality, high-impact graphics that command attention on the shelf. Our commitment to sustainability ensures that your brand's values align with consumers who are demanding more environmentally responsible packaging solutions for both themselves and their beloved pets.

Commitment to quality

- Our pet care packaging portfolio provides superior protection against damage and moisture, minimizing waste and ensuring your products reach consumers and their pets in pristine condition and stay that way.
- Our rigorous quality control measures ensure we deliver packaging that not only looks exceptional but also performs.

Your partner in innovation

- Our team of experts will collaborate closely with you to develop solutions that will delight consumers and drive sales.
- Intelligent structural design, impactful creative design, and advanced barrier technologies combine to deliver packaging for your pet care portfolio that will stand out on crowded retail shelves.

Sustainable packaging

- We are committed to making a world of difference and contributing to a renewable future for the next generation.
- We aspire to achieve Net Zero Greenhouse Gas emissions by 2050 and we have a defined path for achieving our Science Based Targets (SBTs).

Our Unique Packaging Portfolio for Pet Care

Unique structures. Eye-catching graphics. Convenient integrated features. Our innovative pet care packaging solutions help to create a great consumer experience, elevate your brand, and enhance the circularity of your packaging portfolio.

Multipack Cartons

Our **multipack carton portfolio** for pet food accommodates both pouches and cans in a wide range of configurations. Options include minimal-material clips and wraps for cans, and fully enclosed cartons for larger pack sizes of cans and pouches.

Pack enhancements can include innovative corner styles such as rounded, square and beveled, integrated handles for easier carrying, and innovative opening features for easy dispensing.

Boardio™

Boardio™ is a recyclable paperboard canister that offers a cost-effective alternative to rigid and flexible plastic and metal containers. Ideal for items such as pet treats, Boardio is made from more than 80 percent fiber and features either a unique six-sided shape that offers excellent branding opportunities.

Bespoke barrier technology ensures the contents stay fresh, while its easy-to-open and re-close integrated lid facilitates a good consumer experience.

IntegraFlute™

IntegraFlute™ is an omnichannel solution that replaces large plastic bags and buckets. A hybrid structure, it combines a flexible inner bag with the structural protection of a fluted box.

The inner bag is specified to the barrier requirements of each product, and can include a slider zipper for a more secure reclose. The outer box is LithoFlute, our litho-laminated corrugated technology with excellent print quality for superior shelf presence and branding.

Strength Packaging

Designed for heavier items such as kitty litter, our **strength packaging** is ideal for retail environments, e-commerce, and club store distribution. These solutions offer protection through functional barriers, streamlined supply chains, improved efficiency, and enhanced brand identity.

Integrated Machinery Solutions

We offer a wide portfolio of **machinery systems** for multipacks, cartons, and paperboard canisters. Our machinery systems can help maximize your efficiency and are built with your needs in mind. The machines cover a full range of applications and speeds for all packaging needs.
