

Post-consumer recycled fiber (PCF) paper hot cups are made with a minimum of 10% PCF. This beverage packaging option can demonstrate your commitment to the environment with consumers while helping you meet your sustainability goals. It is recommended to use our Cup Buddy™ Kraft sleeve with PCF hot cups.

Circularity

- Fiber used meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing standards, ensuring that it comes from sustainably managed forests
- Recyclable only in the few communities that have the appropriate recycling facilities
- Free of intentionally added PFAS

Functionality

- Made with a minimum of 10% post-consumer recycled fiber
- Opportunity to promote your commitment to the environment, while helping you meet your sustainability goals for your business
- Made in the USA, delivering supply chain security and efficiency

Convenience

- Common lid to fit all three hot cup sizes
- These single-use paper hot cups can be complimented with our plain or printed Cup Buddy™ kraft sleeve
- Available with a custom print to create a sense of brand personalization with consumers or a stock design
