

Individually wrapped paper cups are designed to help eliminate concerns around cleanliness and to improve self-service beverage stations by providing a sanitary solution. Consumers can feel confident opening the seal, knowing that they will be the first to touch that cup. The clear plastic wrap allows the consumer to see a printed message or brand on the cup.

Circularity

- Fiber used meets the Sustainable Forestry Initiative® (SFI®) Certified Sourcing standards, ensuring that it comes from sustainably managed forests
- Recyclable only in the few communities that have the appropriate recycling facilities
- Free of intentionally added PFAS

Functionality

- Supports cleanliness and sanitation practices to promote a healthy environment
- FDA-compliant
- Made in the USA, delivering supply chain security and efficiency

Convenience

- Easily stacked on a counter in a dispenser or on a cart
- Suitable for most standard in-room coffee machines
- Offered as standard hot cups, ecotainer™ commercially compostable hot cups and Hold&Go™ insulated hot cups
